The addition of 220 parts by weight of (1S,1'R)-1-(3',3'-dimethyl-1'-cyclohexyl)ethyl trans-3,4-epoxyhexanoate to the above-described woman's perfume imparted to the latter a fruity-blackberry connotation, together with a powdery-musk note. It would be impossible to obtain such olfactive effect by the addition of Romandolide®.

What is claimed is:

1. A compound of formula

wherein R represents a linear, branched or cyclic C₁₋₃ hydrocarbon group, and the wavy line indicates that the substituents on the epoxide moiety may have a cis or trans configuration.

2. A compound according to claim 1, wherein R is an ethyl group.

3. As a compound according to claim 2, (1S,1'R)-1-(3',3'-dimethyl-1'-cyclohexyl)ethyl trans-3,4-epoxyhexanoate or (1S,1'R)-1-(3',3'-dimethyl-1'-cyclohexyl)ethyl cis-3,4-epoxyhexanoate.

4. A perfuming composition comprising:

at least one compound of formula (I) as defined in claim 1; and

at least one ingredient selected from the group consisting of a perfumery carrier and a perfumery base.

5. A perfuming composition according to claim 4, further comprising with at least one perfumery adjuvant.

6. A perfumed article comprising, as perfuming ingredient, at least one compound of formula (I), as defined in claim 1.

7. A perfumed article comprising, as perfuming ingredient, a perfuming composition as defined in claim 4.

8. A perfumed article according to claim 7, in the form of a solid or liquid detergent, a fabric softener, a perfume, a cologne or after-shave lotion, a perfumed soap, a shower or bath salt, mousse, oil or gel, a hygiene product or hair care product, a shampoo, a body-care product, a deodorant or antiperspirant, an air freshener, a cosmetic preparation, a fabric refresher, an ironing water, papers, wipes or bleaches.

9. A method to confer, enhance, improve or modify the odor properties of a perfuming composition or of a perfumed article, which method comprise adding to the composition or article an effective amount of at least one compound of formula (I), as defined in claim 1, ~~as perfuming composition as defined in claim 1.~~

10. A method to confer, enhance, improve or modify the odor properties of a perfuming composition or of a perfumed article, which method comprise adding to the composition or article an effective amount of a perfuming composition as defined in claim 4.
